This packages provides several DLR logos drawn with TikZ. The possible logos are compiled in table 1. There are command to draw the logos in normal text as well as commands for drawing the logos within a TikZ-environment. The latter one accept an optional argument, i. e. a coordinate where the logo is to be drawn. The `\dlrlogo` command recognizes, if the current language selected via the `babel` package is not (n)german, and adds the english name of the DLR to the logo.

Table 1: DLR logos provided by the `\dlrlogos` Package

Command	Command in TikZ	Logo
`\dlradler`	`\tikzdlradler`	use **DLR** separately
`\dlradlerinline`	not available	use inline
`\dlrlogo`	`\tikzdlrlogo`	**DLR** **Deutsches Zentrum für Luft- und Raumfahrt** German Aerospace Center
